Marie Curie ~ A Nobel Life

"Never to let one's self be beaten down by persons or by events." —M.C.

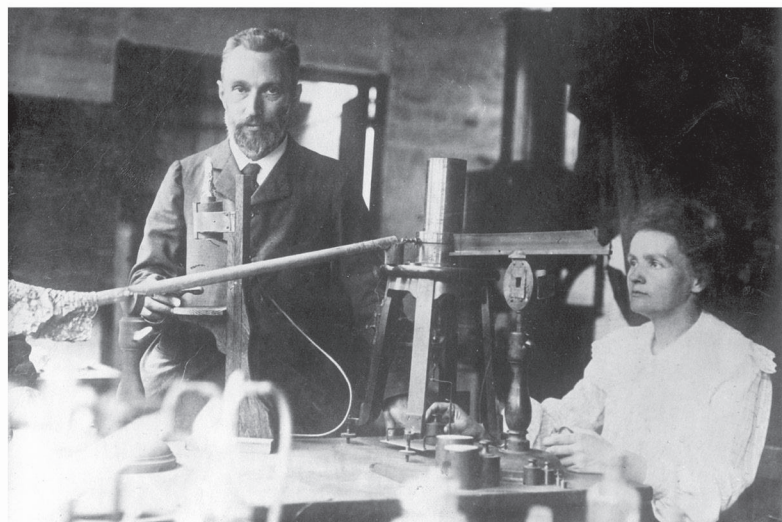

Ann Atkins

Justice, Leadership and Social Responsibility are the themes of Marie Curie's life when her discoveries in science transform society. Weaving together Marie's personal struggles and public life, Ann Atkins' presentation renders Marie's journey as relevant and inspiring for any audience.

Ann's appearances have included: National Press Club, Fox News TV, International Women's Day in Washington D.C. as well as Universities, Library Lectures, Book Clubs and Civic Groups around the United States.

SUMMARY: Marie Curie endures a childhood in Poland wracked with Russian oppression and harsh lessons as a young governess. Setting course to study science at the Sorbonne she upsets the status quo of a male dominated world. Rising from ashes more than once, Marie's scientific discoveries are a gift to the world and her life surpasses an oppressive society. Marie inspires readers who believe like her, they are "gifted for something."
